Comfortable: Rest APIs | MongoDB | Mongoose | Vue.js

Familiar: Node.js | PHP | Laravel

Tools: Chat GPT | VS Code | NPM | Chrome DevTools | Netlify | Vercel | Figma | Railway

Interpersonal Skills: Communication, Hardworking, Active Listening, and Collaboration

Projects:

TrexFix –Travel - [Full-Stack Travel Buddy Matching App]

[Live Link](#) | [Server](#) | [Client](#)

- Users can create profiles, search for potential travel partners, plan trips together, and authenticate securely through the system.
- In this project, there are following routes: Home Page, Post a Travel, Travels Page, Travel Details Page, Travel Request Page, My Profile, Change Password Page, and About Us, all with a shared header and footer containing navigation links.
- Admin Dashboard allows administrators to manage user accounts (activate/deactivate, edit roles) and travel posts (view, edit, remove listings).

Technologies: Next.js | Redux | Node.js | Typescript | Tailwind | PostgreSQL | Railway

AidNAssist - [A Full-Stack Donation platform]

[Live link](#) | [Client](#)

- A dedicated platform simplifying online donations and supporting various social and humanitarian causes.
- **Volunteer Management:** Manage and showcase detailed volunteer profiles.
- **Donation Tracking:** Monitor progress and contributions towards different causes.

Technologies: React.js | Firebase | Express.js | MongoDB | Node.js | Tailwind | Framer Motion | Swiper.js

Jazz Yoga Summer Camp - [Virtual Summer Yoga Retreat Reservations Platform]

[Live Link](#) | [Server](#) | [Client](#)

- Jazz Yoga Summer Camp is a comprehensive **Full-Stack Application** featuring an admin, instructor, and student dashboard.
- Administrators can approve/deny classes, provide feedback, and manage user roles, including promotions to admin or instructor.
- Instructors can seamlessly add, update, and delete classes according to their requirements.
- Students have the convenience of viewing and selecting available classes and upon successful payment, they can enroll in their preferred courses.

Technologies: React.js | React Query | Tailwind | Vercel | Firebase | Stripe | MongoDB | Node.js | Netlify
